DEMO

ITTC

SUMMARY

1. Design the UML before starting the project
2. Create web pages using Bootstrap
3. Learned how to use PostgreSQL
4. Learned how to use python and Django Framework to achieve full-stack applications
5. Learned how to use git tool to manage group project
6. Learned how to use AI to solve the problem such as programming bug

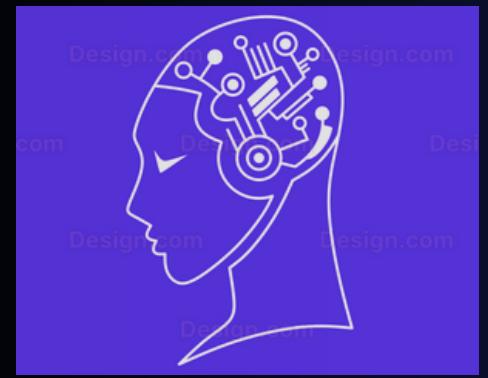

ITTC

CHALLENGE

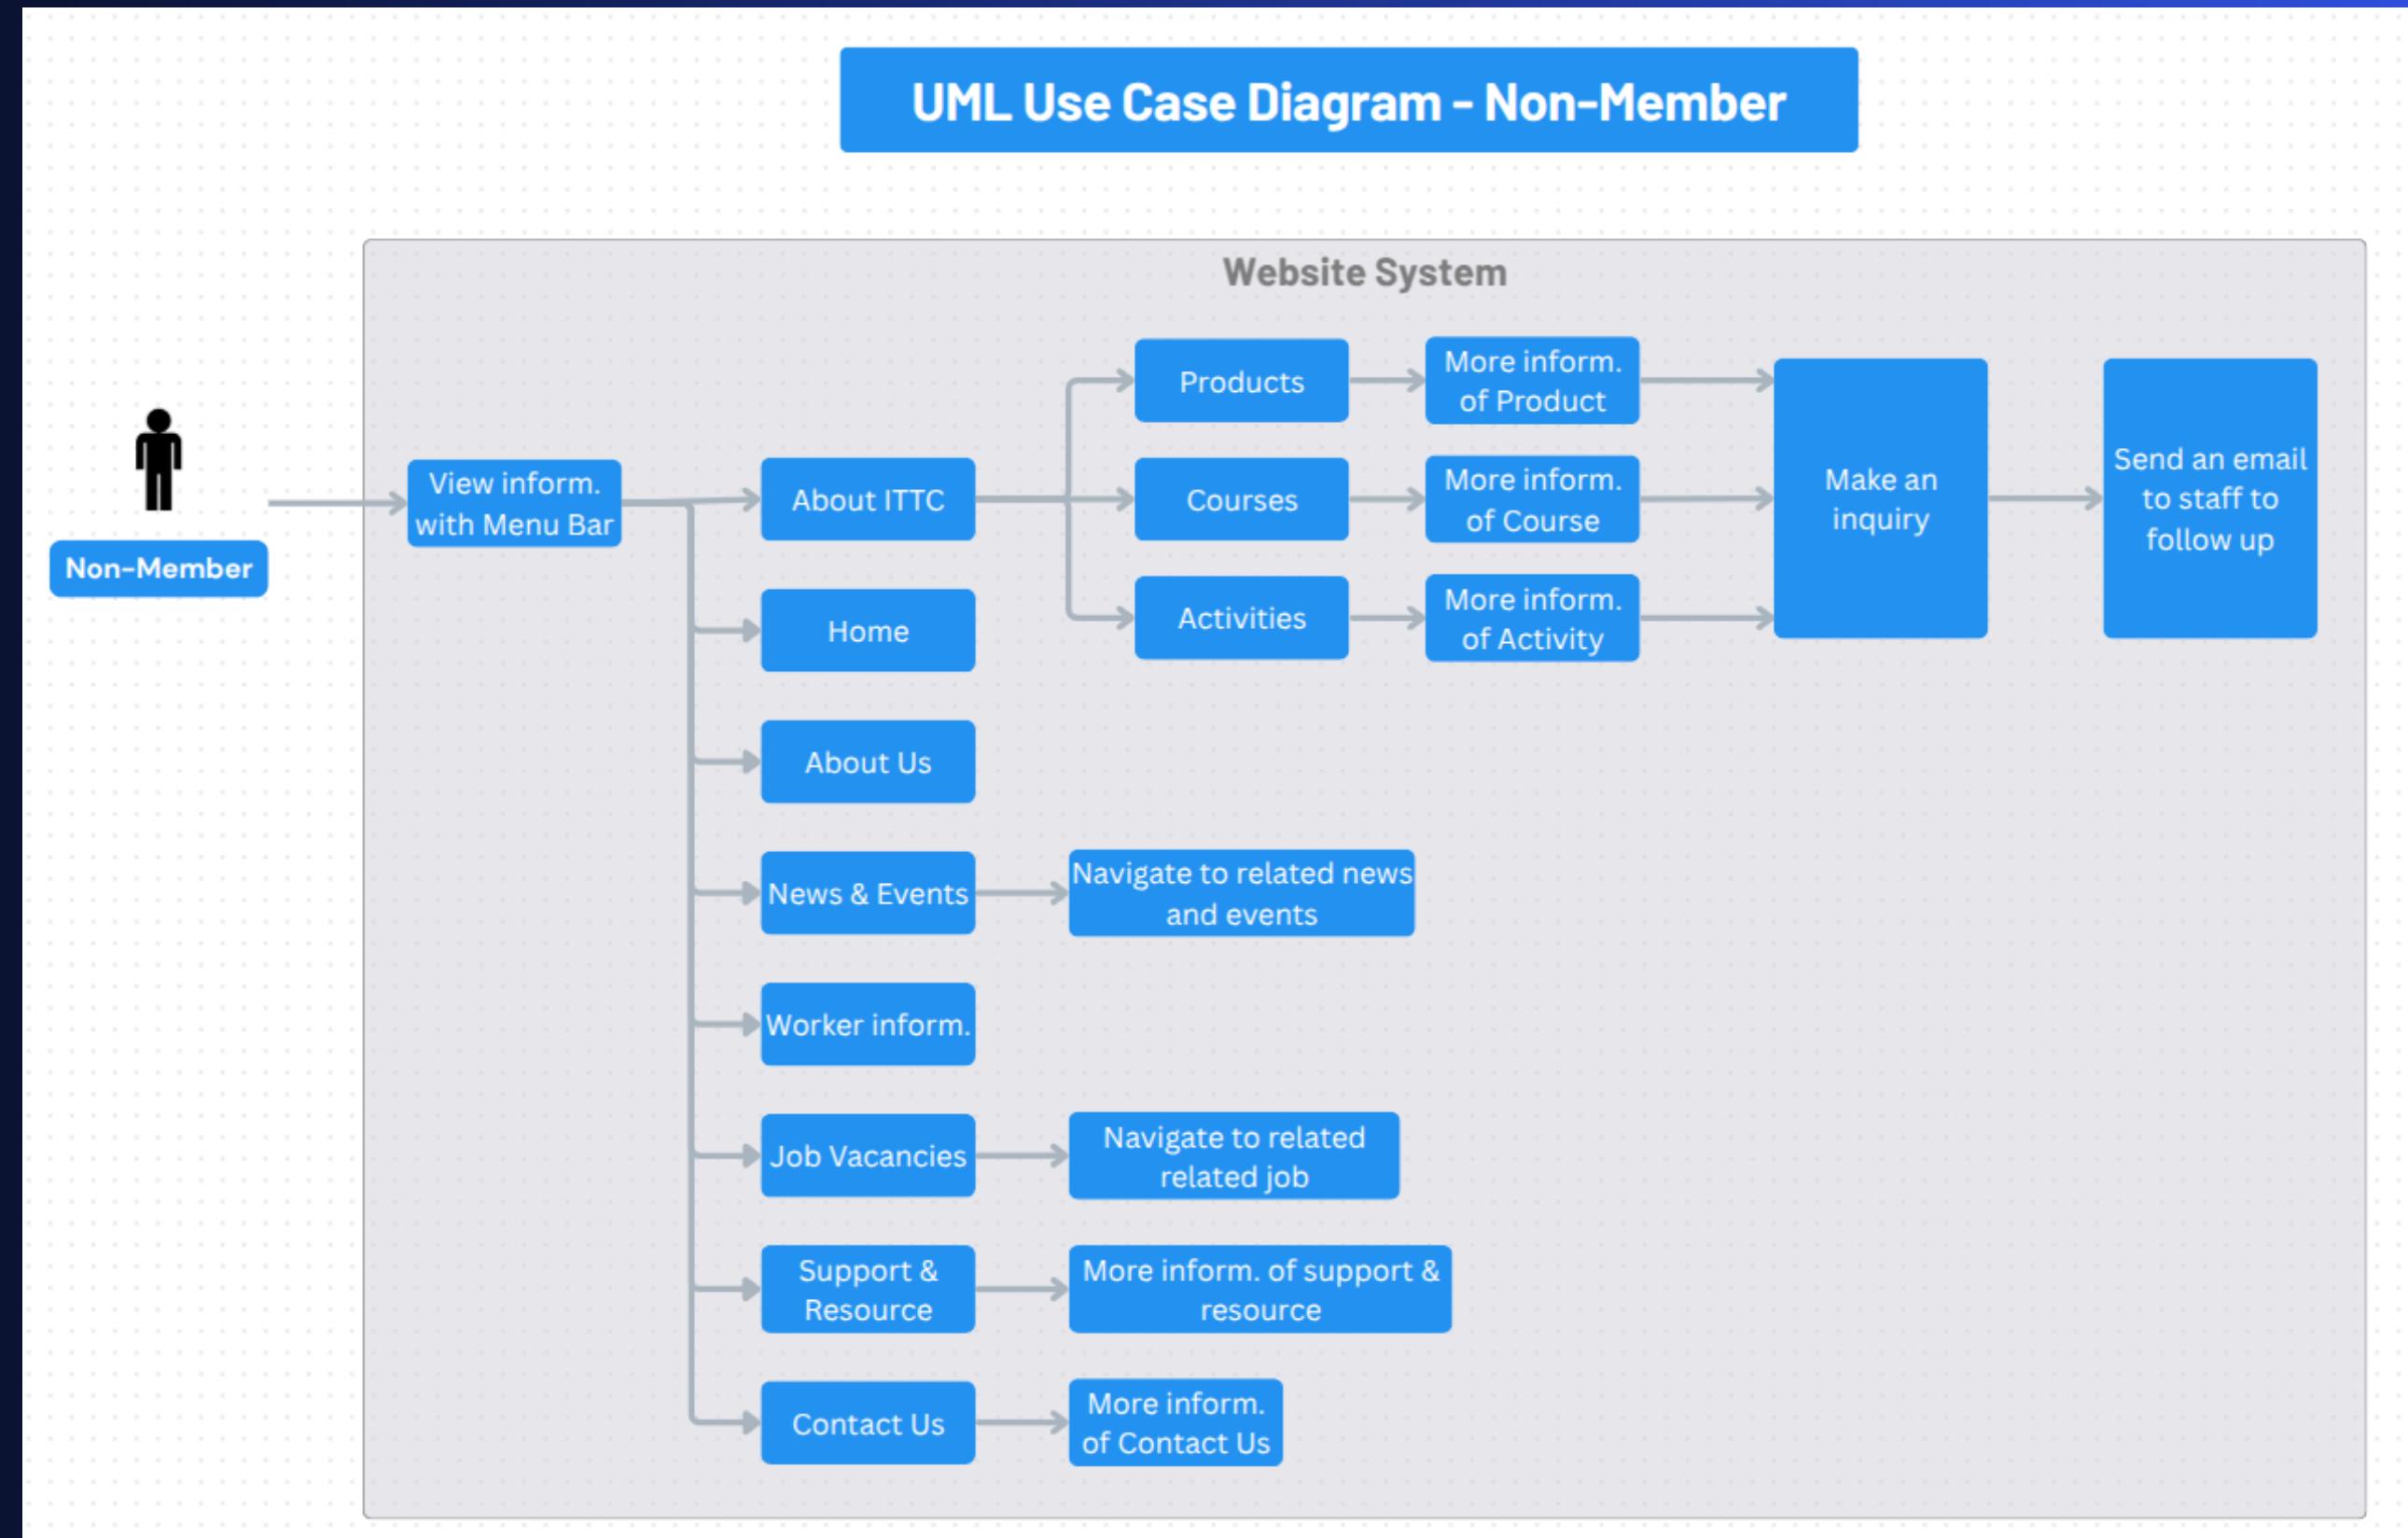

1. Installing many tools in short time
2. lack of frontend design knowledges
3. Database design
4. Merging program using git
